His household will be administered on a generous scale and his life will be safeguarded as he earnestly requested when informed of his deposition. Abdul Hamid, his four wives, five daughters, two younger sons, two eunuchs and a comparatively large number of female servants were taken from Yildiz palace last night and started under an escort for Saloniki.

CHIMPANZEES TERRORIZE CREW OF STEAMER

(By Associated Press.)
NEW YORK, April 28.—When the German steamer Tanenfels arrived here from Calcutta late yesterday, Captain Lubke told of the escape of six chimpanzees, part of a consignment of 600 members of the simian tribe that he brought to a New York animal dealer, from their cage, and their vicious attack upon several members of the crew.
Three of the chimpanzees followed Wong Foo, the Chinese Cook, into the rigging, and there one of them held his queue until the animal was knocked senseless with a rod. Chief Engineer Newman was chased about the deck by the other chimpanzees, and suffered a severe laceration of his arm where he was struck by a marlin spike hurled by one of the animals.
The largest of the chimpanzees was cornered by several members of the crew in the boatswain's locker, and there he presented such a vicious front that the men were glad to retire. The animal then dashed out and leaped into the sea.
The others were subjugated only by starvation, but in the two days it required to do so they had the ship's crew terrorized.

RICH GOLD ORE FOUND IN COAST RANGE

(By Associated Press.)
SAN LUIS OBISPO, April 28.—A discovery of gold bearing ore worth \$200 a ton in the workings of an abandoned mine in the San Carpajaro section of the Coast range mountains has caused great mining excitement here. It is stated that \$30,000 worth of ore has been broken down and stored in the mine awaiting treatment.
The discovery comes as a surprise to mining men as geologists have declared it far from probable that mineral of value would be found in the hills along the coast because of the comparatively short time, geologically speaking, that has elapsed since those hills were thrown up.
Old time prospectors, on the contrary, have claimed that somewhere in the Coast range important gold deposits were to be found, basing their belief on the tales handed down from the Spanish inhabitants.

BREAKS DOWN AFTER TRIAL FOR HIS LIFE

(By Associated Press.)
SAN FRANCISCO, April 28.—John Walter Wilson, convicted of murder in Judge Dunne's court on purely circumstantial and "writing expert" evidence, collapsed this morning in the county jail at the prospect of life imprisonment. Tortured through the trial by the fear of conviction; saying to himself over and over, "God knows I am innocent, but appearances are against me," hoping that his straightforward story would be believed, but fearing the worst as he saw the pitiless web woven around him, he has finally broken down, and this morning was taken to the county hospital in a pitiable condition.
The story told in court was that Harry Boas, Wilson's employer, who was not in good health, received mysteriously through the mail a package of powders and a letter recommending him to take them, which he did, death being the result.
All through the trial Wilson was in a nervous state. Alone and friendless, thinking with homesick yearnings of his widowed mother, and a crippled brother in Philadelphia, he sat day after day watching the weaving of the web, looking into the faces of the twelve men who were to judge him, almost crazed by the thought of the dear ones in the east who were praying for his safety.

CALHOUN MAKES LONG SPEECH TO THE COURT

Presents Unique Spectacle When United Railroad Presidents Denounce Al- legations Made by Prosecution.

(Associated Press.)
SAN FRANCISCO, April 28.—The unusual spectacle of a defendant addressing the court while his five attorneys remained silent was presented in the Calhoun trial today when Calhoun denounced the allegation made by Assistant District Attorney O'Gara that attempts were being made by followers of the defense to communicate with the jury. The climax was precipitated when O'Gara during the examination of James F. Kelley, the fourth member of the Schmitz board of supervisors called to the stand, called the attention of the court to the fact that a young man at the defense table had made motions and laughed in the direction of the jury whenever a point was scored by the defense. Heney followed with the assertion that a well known saloon-keeper admitted within the railing he had bowed to the members of the jury. Heney took up the issue when Barrett denounced O'Gara's charge as false. O'Gara made the objection when Calhoun finished, and Judge Lawlor expressed his opinion that any statement made by the defendant except through his attorneys was improper. The trial will be resumed tomorrow with former Supervisor Kelly still under examination.
